3. Specify requested heel height.  
4. Specify requested hardness.  
5. Standard roller thickness 5 mm, if other thickness requested please specify.  
6. In comment field write a type of requested CNC sole.
Dolphin

- Back pull loop
- Ankle fixation
- Zipper for easy fit
Universe

Unique design - the shoes can be fastened with one hand

Deep opening of the shoe at the front

Easy to put a stationary foot in the shoe

Perfect solution for service personnel when it is necessary to wear a stationary patient

With the help of a zipper part of the heel is released

Convenient to fix the stationary toes in the required position

Not recommended when strong foot stabilization is required
Chili

- Flexible calf support
- Soft calf part
- Removable and washable calf part
- Integrated Pre-preg orthotic with Pre-preg footplate
- Outstanding loop place for tighter tying
- Padded and raised heel for better heel grip and easier way to put on shoes
- Special loops for shoelaces
- Midsole from softer EVA
- Lightweight and breathable textile
- Fast roller
- Sole on toe
- Comfortable slip-on thanks to wide and long lacing
Spring

Integrated Pre-preg orthotic with Pre-preg footplate

Strong immobilisation

New solution for welt and boarding

Great alternative to a high boot
