ORTHOPEDIC AND PRODUCTION SOLUTIONS
Dolphin

- Zipper for easy fit
- Back pull loop
- Ankle fixation
Unique design - the shoes can be fastened with one hand

Deep opening of the shoe at the front

Perfect solution for service personnel when it is necessary to wear a stationary patient

Easy to put a stationary foot in the shoe

With the help of a zipper part of the heel is released

Convenient to fix the stationary toes in the required position

Not recommended when strong foot stabilization is required
Possibility to adapt the elastics as the foot volume changes

Comfortable model for the shoe technician assisting the patient
Quick lacing system - possibility to increase the volume at the calf by 5-6 cm.

Molded sole Nadia 81
Chili
